“ I miss you GJ. I remember dropping Ariel off at the old admin for AA class and I would wait a hour an a half for him to be pau. & you'd pop out of no where to keep me company in the parking lot because it was dark and scary. I remember coming home from the mainland after finding out our cousin Ariel went to heaven, and I would vent to you or noe about how I felt and how I missed her and you would hug me so tight that it made me feel a lot better and protected. I remember when I hung out at omb and I would be hungry you'd go to the store & get me musubi and a large Pepsi. I also remember me walking home at night & you would say "POPEYE " my nickname why you stay out? Does your maddah know where you at? I would also reply yes gj I'm walking home from cooling off, but litterally sprint home because I was scared he would beat me there and tell mom that he seen me out. I miss you so much, today was the first day I watched your memorial service in my car at work and I couldn't stop the tears from falling. I will always remember my big cousin always there for me thru most of my good and bad times. I love you gj and say hi to cousin Ariel up there

“ Miss you so much dad there never a day that goes by of me not thinking for you I cry when. I think about you I wish you was here so we can make memories again and make trouble to each other. I miss you so much dad I can't wait to see you but please watch over all of us. One of the best memories I remember is when you would take me all over the place and you would always have snake with you. You will always have candy when ever I see you and I miss the day when you spoils me and when we will laugh together. I miss you so much dad

“ I miss you honey and words cannot even express our bond and unconditional love we shared. I will always remember your soft spoken voice and touch. All the support and love for the kids you gave to them. Remembering our camping trips and picking shells. So use to coming home to you and now you no stay all the smaller things we take for granted, now how much I miss your presence . Breaks my heart that you have gone away. I will see in my dreams and I believe you are an angel watching over us everyday. Thank you for letting us love you in your final days. I will see you when I get there but I till that day we give you love and kisses and in our heart you will stay.
